Hi Roshan,

Overall it looks good. The following two points seem missing from your report:

1. The specification of Assessments. Only the admin can add it and modify it. The specification is for all the projects.
2. Supervisors can create, edit and delete their projects.
3. Each type of users should have a dashboard.

Cheers,

Would **Wednesday, 8 May**, between **11:00 AM and 1:00 PM** work for you? If so, please let us know your preferred time slot, and we can proceed. If another day or time is more convenient, we're happy to adjust.

Since we already have a dedicated Teams channel, I'll add the meeting link.

Hi Roshan,

My apologies for missing the previous meeting. I have been overwhelmed by admin work and teachings since I took the role of HoP.

I am currently having a bad cold or Covid. I will let you once I get better.
