Good Morning Dr. Wu,

Attached is the final version of the project proposal.
Please feel free to share any feedback or suggestions you may have.

Looking forward to hearing from you!

Best,
Roshan Dahal and Team

HI Roshan,

Overall it looks good. The following two points seem missing from your report:
1. The specification of Assessments. Only the admin can add it and modify it. The specification is for all the projects.
2. Supervisors can create, edit and delete their projects.
3. Each type of users should have a dashboard.

Cheers,
